

Lewis Hill

curriculum vitae

Employment

August 2007 - October 2010

www.packer-products.co.uk

Senior Webdesigner including CSS/HTML, designing and maintaining the companies website, including retouching photography, designing graphics, structuring the content and performing SEO.

August 2007 - October 2010

www.hotmeltgluegunsandsticks.co.uk

Senior Webdesigner including CSS/HTML, again I was responsible for the design and maintenance of the website, as well as being involved with designing business cards, flyers, leaflets, brochures, logos and other promotional materials.

March 2010

www.andrewtimms.co.uk

Designed and developed the website for a photographer who needed an easier way to display his photos. The website needed to be clean, modern and easy to update without any knowledge in webdesign. The website was created using CSS/HTML, PHP & jQuery.

December 2009

www.tradetruster.com

Designed the layout for newly forming company that aimed to make it easier for people to find trusted builders who worked in the area they live in. The layout was produced using a Sketchpad, Adobe Photoshop CS4 and Adobe Illustrator CS4.

June 2009

www.gates-jtlsteel.co.uk

Designed and developed the website for a Steel Gate Manufacture company as a way of advertising the services offered. A big part of this project was to ensure the website performed well in search engines. At the time of writing the website is #1 in Google with the search term 'steel gates essex'. The website was created with CSS/HTML and PHP.

Specific references available on request.
